LOCAL HEALTH RESOURCES

The following alphabetical list of health care providers has been compiled by the Health Unit of the U.S. Embassy in Colombo. Most of the medical doctors identified herein have had training overseas, are familiar with American or British medical care, and all of them have a good command of English.

The list is not meant to be exhaustive or definitive, nor does it represent either a guarantee of competence or endorsement by the Department of State or the U.S. Embassy. It does indicate that they have been utilized by the U.S. community in the past. Retention on this list depends upon a combination of factors including availability, training and positive assistance in previous consultations. Patient input, both positive and negative, regarding experience with local health care providers, is always welcome and provides additional information to assist in expanding or contracting this list.

Please note that the cost of all medical services is the responsibility of the patient or guardian.
